The critical clinical virtues: simplicity, reliability, convenience.

The *Zimmer* Surgical Motor System. It's an essential component of our philosophy of providing total solutions for dental professionals around the world. The ready-to-use system comes complete with a motor, console, irrigation tubing, and foot pedal.

- Easy-to-follow programs are pre-set for Zimmer Dental products, allowing flawless and convenient operation
- Lightweight, 20:1 contra-angle handpiece incorporates an improved chucking system that provides increased torque control, raising confidence during surgery
- System offers a wide motor speed range of 300-40,000 rpm and is compatible with a variety of handpieces that have a universal ISO connection
- Worldwide service centers offer quick turnaround time

System Components

Console

For maximum clarity and convenience, the console features a simple array of buttons and a bright, easy-to-read display. Program settings are simple to change for use with other implant systems.

Motor

Utilizing a universal ISO connection, the motor can be used with straight and contra-angle handpieces of all types. This quiet-running, maintenance-free motor can be easily sterilized.

Irrigation Tubing

Conveniently included with the system, the one-piece irrigation tubing requires no assembly and is disposable, saving you time on routine maintenance. A variety of tubing is also available to meet your practice needs.

Foot Pedal

The foot pedal allows you to easily turn the motor on and off, switch programs, adjust clockwise/counter-clockwise running, seamlessly control the motor speed, as well as turn the coolant pump on and off.

A new, enhanced version allows for more control in speed regulation, offers a removable handle for added convenience, and is available for individual purchase.

Zimmer Surgical Motor System Pre-Set Programs Chart

Program	1	2	3	4	5
Procedure	Drilling	Drilling	Implant Insertion Implant Removal	Implant Insertion Implant Removal	High Speed Drilling, Wisdom Teeth & Block Grafts
ransmission Ratio	20:1	20:1	20:1	20:1	1:1
Speed (rpm) Factory Setting	1,200	850	15 Forward 30 Reverse	30 Forward 30 Reverse	35,000
Adjustable Range (rpm)	15 – 2,000	15 - 2,000	Fixed	Fixed	300 - 40,000
orque (Ncm) Factory Setting	Max	Max	35	35	Max 5.5
Adjustable Range (Ncm) ntermediate Stage (Ncm)	-	- 111	5 – 50 (In 5 Ncm Increments with an Intermediate Stage of 32 Ncm)	5 – 50 (In 5 Ncm Increments with an Intermediate Stage of 32 Ncm)	-
Motor Direction	Forward	Forward	Forward/Reverse	Forward/Reverse	Forward
Pump	On	On	Off	Off	On

A precise handpiece for every application.

Crafted from 100% stainless steel, an extensive range of handpieces enables a wide range of implantology and maxillofacial surgery applications. Engineered with Austrian precision, these handpieces are constructed to meet your most demanding procedures with ease and reliability.

- Contra-angle handpiece and reciprocating, oscillating, and sagittal saws allow for bone drilling and cutting in various directions
- Contra-angle handpiece can be thoroughly cleaned without dismantling
- All handpieces deliver low vibration and quiet operation for a smoother procedure

New 20:1 Contra-Angle Lighted Handpiece

 Shed new light on your surgical site with the new WI-75 LED G Contra-Angle Handpiece, which contains an independent light generator. The improved design eliminates the need for a separate motor unit with light-generating capabilities, and is compatible with all motors that have an e-type connection.

With a brightness of 5,000 to 31,000 Lux and large illumination field, this innovative LED technology provides intense daylight-quality light, superior to standard halogen bulbs.
